Class The Lodge
 Summer 2023
 Curriculum Newsletter

Dear parents and carers,

Hello everyone and welcome back to school after I hope, a wonderful holiday period. We are all so excited to have all the students back in school and we cannot wait for the term ahead. I hope to offer a challenging and engaging curriculum, meeting all the needs of my Engagement group, offering a bespoke curriculum, working at our young people's starting points. I hope to share each week new progress, linked to learning intentions from MAPP2 onto Kinteract, so that you can also share our excitement in class of all our class achievements. I will continue to update you via email to give you a daily update on what is happening in class. If you would like any more information about the MAPP2 assessment that I use in class, please email me and we can have a chat about this assessment tool.

I have put this curriculum newsletter together, to share with you the topics and units of work that are being covered by Post 16- The Lodge this term. This will give you the additional information needed to talk to your young person about their lessons. We are looking forward to an exciting and busy term and we hope that the students will enjoy it.

We will be cooking each Wednesday as a class and students following the Engagement pathway will be exploring the ingredients used each week, they will eat the food cooked by class, if this is suitable for the young person's dietary needs. We will be joining a whole class Music and Movement group called Electric Umbrella, on a Wednesday afternoon, (if you haven't already) please email me, if you allow and would like your young person to join the online videoed events.

Our topics and themes this term will be:

<p>Summer Term 1 Topic: Party Time</p>	<p>We are going on an adventure listening to a sensory story all about getting ready for a party. We will be sharing sensory stories exploring the sounds, smells, textures and tastes within the story. We will also be using switch technology to make choices along with using the E-Tran frame for clear eye pointing work. We will also be immersing ourselves in a multi-sensory experience, utilising our brand-new Immersive room.</p>
<p>Summer Term 2 Topic: Moving on</p>	<p>We will also be learning through the medium of sensory stories this half term, based on our transition "Moving on". We will be using our switches, E-Tran board, Talkers, use of visuals, signing, intensive interaction and body signing. We will be having a weekly Story massage session, to develop our skills and stimulate our interest in a generalised way.</p>

Your young person will be following the Engagement Curriculum. This is an extremely pupil centred and individualised curriculum focusing on five key areas, incorporating essential therapies. The five key areas of the Engagement Curriculum are "My Communication", "My Thinking", "My Movement", "Myself" and "My Enrichment". See the table below for more details on each area.

<p>My Communication</p>
<p>This area of the curriculum focuses on developing the ability of our pupils to be able to communicate, interact and to make their needs known. Whilst everything we do on a daily basis feeds into this, there are specific therapies and sessions which help us to develop these key communication skills. Our classroom is a total communication environment where we use Makaton signing, body signing, personalised objects or reference, communication switches and photos/symbols to help make choices. We carry out communication sessions on a daily basis such as intensive interaction, story massage, and sensory stories, Tac-Pac, Dance Massage, Attention Autism and Write Dance.</p>

My Thinking

This area of the curriculum focuses on developing our pupils' attention and anticipation skills and awareness of cause and effect in their environment. It also promotes problem solving skills and making choices. Weekly sessions within class include Sensology (Hello Senses), Eye Gaze technology, sensory exploration in cooking, work on the interactive whiteboard and in our immersive room.

My Movement

Movement is a huge part of the curriculum in the Lodge. On a daily basis, we follow our pupil's physiotherapy and positioning programmes, incorporating these into daily activities. Some students have a hydrotherapy programme and will access the hydro pool. We also have weekly Rebound Therapy sessions for each student. Every week we also have a session in the hall with our PE teacher, where we will work on pupil's MATP (motor activity training programme) targets. These targets focus on developing pupil's movement needs.

Myself

This area of the curriculum focuses on empowering our pupils, giving them every opportunity to make progress towards fulfilment and independence. We incorporate opportunities to work on independence skills throughout the school day in areas such as eating and drinking, dressing and personal care needs e.g. toileting and washing. This will look different for each pupil, but the goal is to give every opportunity to increase independence and to make choices about their daily routines. Part of this curriculum also focuses on pupils exploring their own preferences and having a greater awareness of their own bodies and the space around them.

As a part of our RHSE curriculum, we will be creating sensory sessions based on the themes of personal care, friendships and relationships and body awareness. We will also have an overarching focus on consent, ensuring that our young people understand that they always have a choice to opt in or out of touch-based activities. We also seek to give pupils greater independence with their personal care, from pupils choosing who carries out their personal care to independent toileting.

My Enrichment

This area encompasses lots of different motivating therapies and activities, many carried out by therapist, which help our pupils to develop in all of the other areas of the Engagement curriculum. Some pupils will have access to Music Therapy, Pet Therapy and Horse Riding in accordance with their EHCPs. In class, we will have sensory cooking and art activities as well as music and movement sessions. This term The Lodge will continue to join in with the online sessions of Electric Umbrella. These music and movement sessions are co-run by adults with a range of learning differences and celebrated as active participants within the weekly group. The online group actively allows schools from around the country with similar needs to connect and celebrate each other. If you would like your young person to appear on the screen and you have not already given your consent then please drop me an email. If you would like to find out more about Electric Umbrella then click the link.

Things you could do at home

My Communication: Take photos when you are out and about or of familiar people at home. Share these with your young person and make sensory sacks using familiar objects to remember the place or person. Use mirrors, or iPad screens and film interactions together and play these back, the students love seeing themselves in the mirror.

My Thinking: Have a go at cooking together, smelling, touching, listening to sounds and where possible tasting the foods, do not worry about the outcome it is the process of making and exploring that really counts.

My Enrichment: Explore an activity, or an area of interest, whether that is shopping and cooking dinner, or tap dancing with FTM dance. Try to include your young person in all aspects of their life where possible.

Curriculum Newsletter

In Post 16, we aim for your young person to have new and exciting opportunities, gaining readiness for their next learning journey, beyond Birch Wood School. If you are unsure about anything in the Engagement curriculum on offer then please email me on aduc@birchwoodschoo.co.uk

I am always pleased to help you with any questions you may have about your child. Many thanks and we all look forward to an exciting term.

Charlotte Adu – Post 16 Class Teacher
